# Velkomst og indledning

V. Ida Sofie Jensen koncernchef i Lif og bestyrelsesformand i DMVO

# Afsættet er kampen mod falske lægemidler

- EUs direktiv om falske lægemidler (2011/62/EU) stiller krav om, at alle receptpligtige lægemidler får sikkerhedsanordninger.
- Kræver opbygningen af fælleseuropæisk it-system med nationale/regionale baser.
- Særegen model: Forudsætter, at MAH og andre stakeholders bygger og driver systemet.

# Det europæiske system

- På europæisk plan varetages arbejdet igennem European Stakeholder Model (ESM), hvor de vigtigste aktører blev samlet.
- Dannede baggrund for EMVO, som blev stiftet i februar 2015.

# Forløb i Danmark

- I Danmark valgte man også den såkaldte ”stakeholdermodel”
- Stakeholdergruppen bestod til at starte med af:
  - Lif, Apotekerforeningen, MEGROS, Parallelimportørforeningen og Amgros
  - Senere kom IGL også med
- Udarbejdede siden *Memorandum of Understanding*, der dannede baggrund for det videre arbejde

# DMVO ApS

- DMVO ApS blev formelt stiftet den 21. november 2016
- Med de 3 industri-brancheforeninger som aktionærer
- Alle 6 stakeholdere er medlemmer af bestyrelsen

# What is an “OBP”?

- OBP means **On-Boarding Partner**. The OBP is the contracting party of EMVO; it concludes the Participation Agreement (PA).
- The OBP **represents the Marketing Authorization Holders (MAH)** on behalf of which it will upload data for in the European Hub. It has therefore to be legally authorized to conclude contracts on behalf of a MAH/a group of MAHs.
- The OBP has to be **affiliated (\*) to the MAH(s)** on behalf of which it will upload data in the European Hub.
- The OBP should be located in the European Economic Area.
- **The OBP can only upload product data for:**
  - its affiliated MAHs
  - a manufacturer as long as the marketing authorization of the related products lies within the OBP corporation.

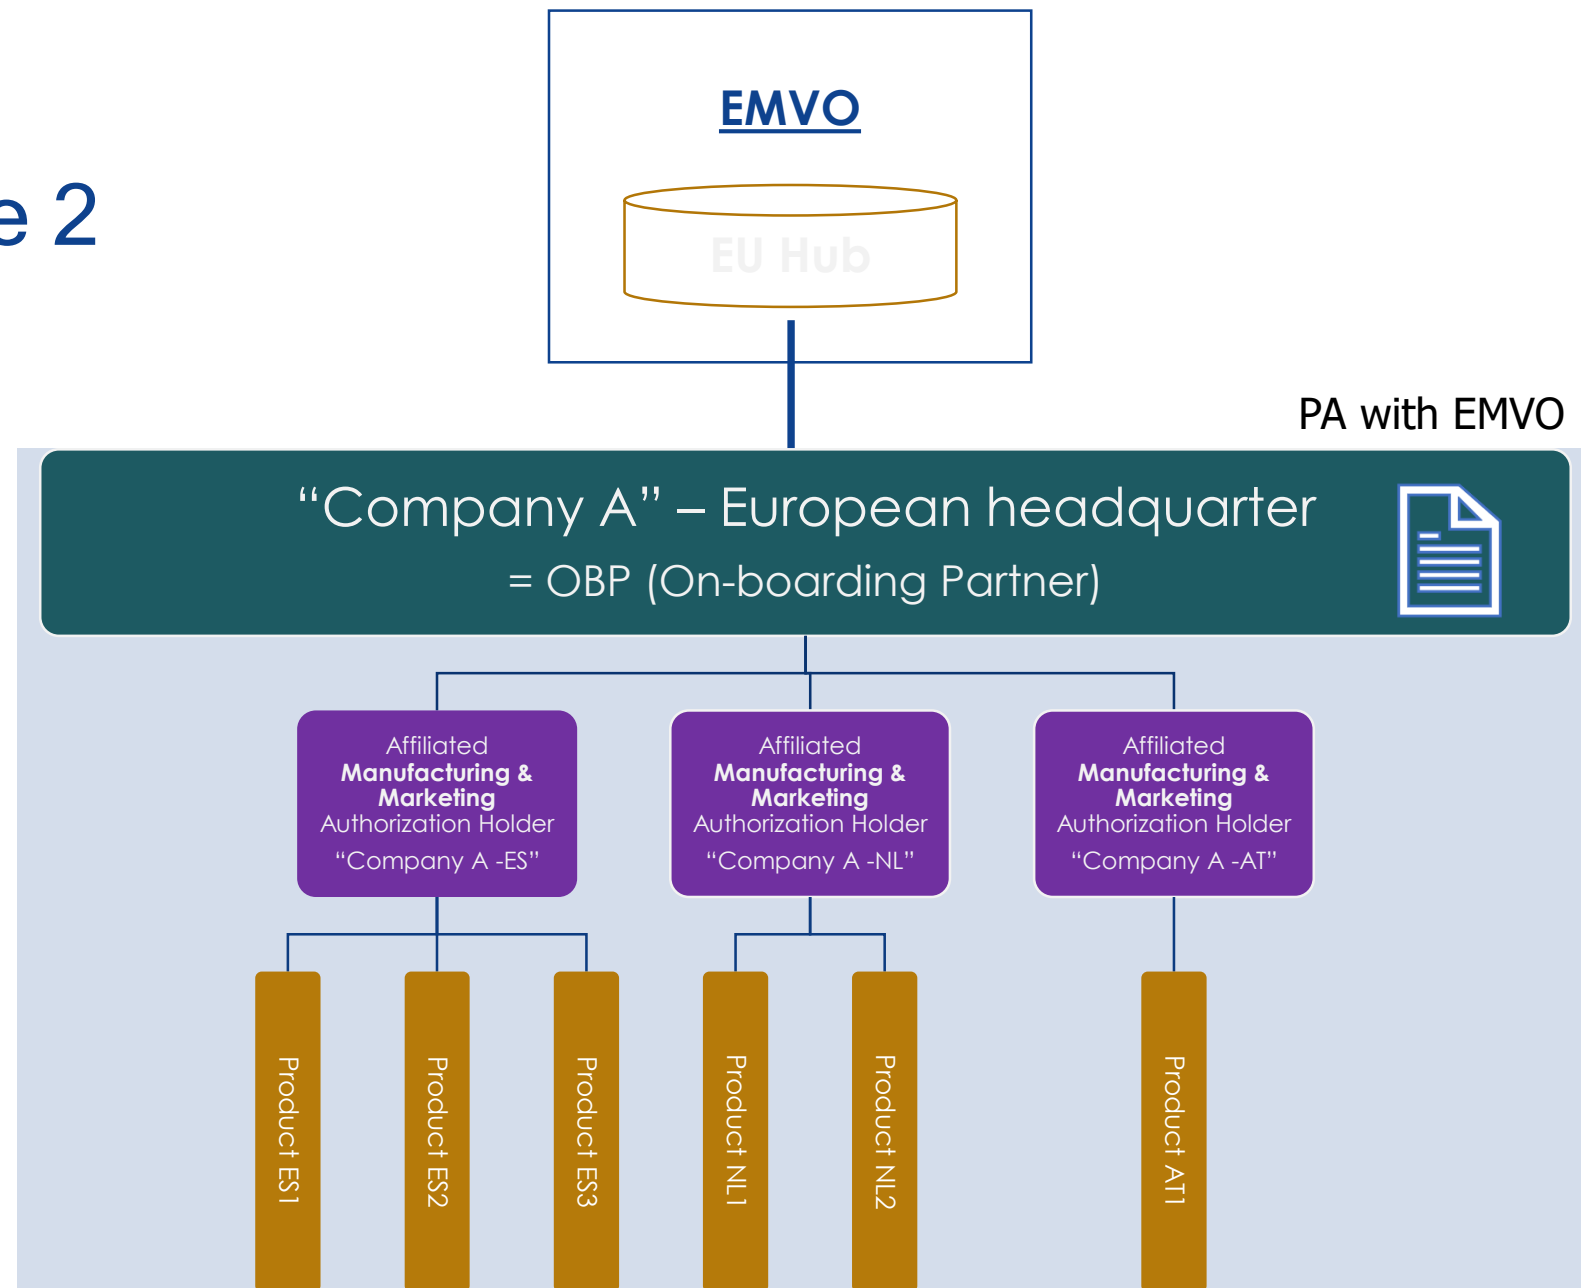

(\*) Affiliate shall mean, in relation to a Party, any other person affiliated with such Party within the meaning of Article 11 of the Belgian Code of Companies (it being understood, for the avoidance of doubt, that the definition set out in said Article 11 is agreed to also apply to non-Belgian persons).

**Hvor langt er vi med etablering af det danske verifikationssystem: DMVS?**

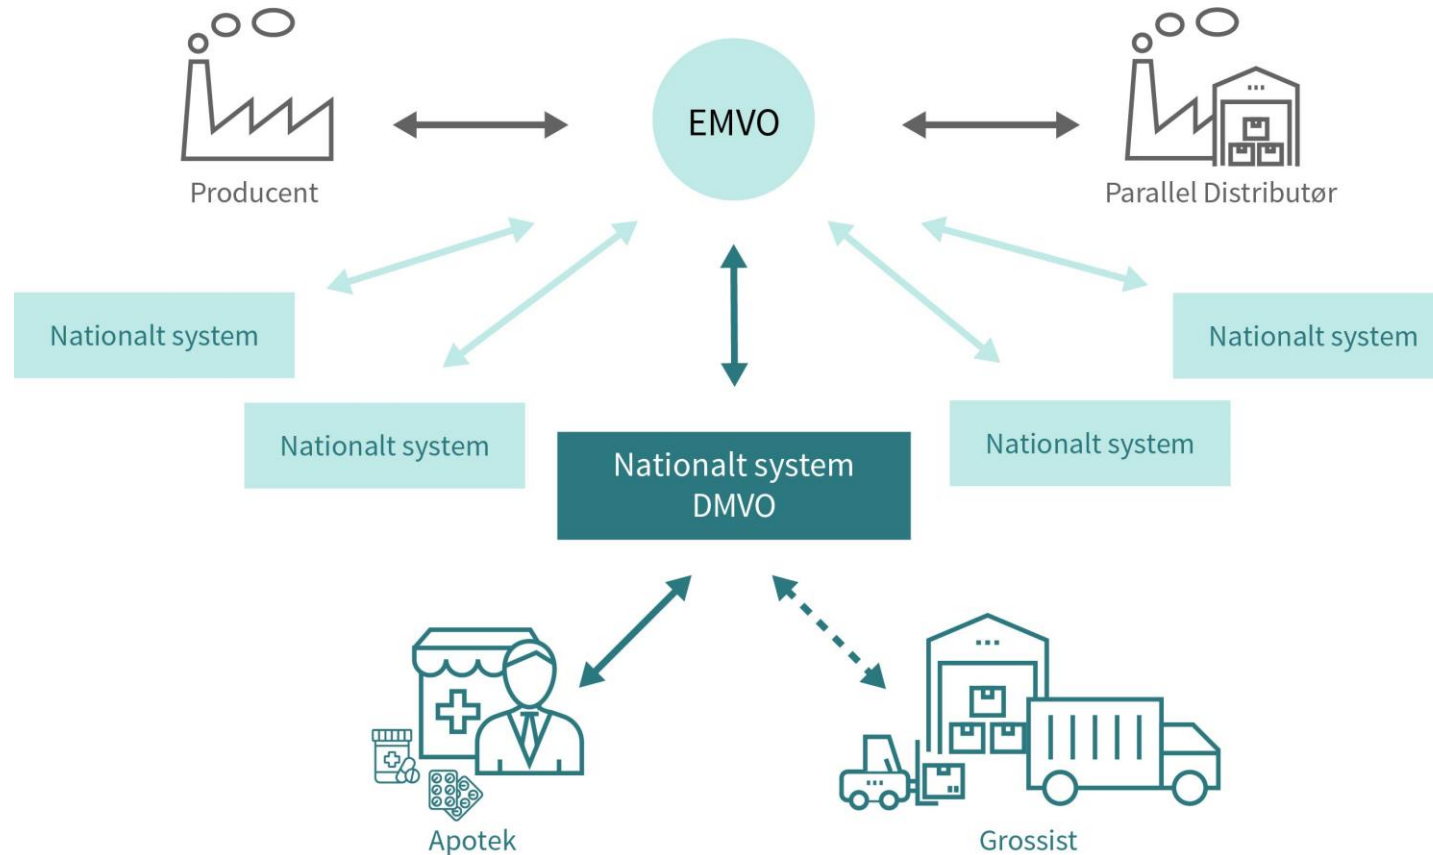

**Lidt om processen vedr. valg af IT leverandør**

**Hvem har været involveret fra Danmark?**

**Hvem er valgt til at være DMVS leverandør i Danmark?**

# Systemet skal fungere fra 9. februar 2019!

# Baggrund og proces for valg af it-leverandør

- EMVO havde på forhånd udvalgt tre IT-udbydere, som såkaldte blueprint-providere. Dette indebar, at der var tre udbydere, som man havde forhandlet en "minimumskontrakt" med, og som man kunne garantere ville kunne løfte opgaven med etableringen af det nationale dataverifikationssystem.
- Der blev på møde i stakeholdergruppen den 20. maj 2015 besluttet at nedsætte en IT-gruppe. Denne gruppe skulle deltage i de fælles nordiske workshops, og senere også afholde nationale workshops.
- På baggrund af disse præsentationer, var der enighed i gruppen om, at man skulle frasortere en af udbyderne, og gå videre med forhandlingerne med de to resterende.
- Der blev herefter afholdt flere nationale workshops med begge udbydere. Ved disse workshops deltog alle danske stakeholdere, samt disses samarbejdspartnere - bl.a. apotekernes IT-leverandører.

# Baggrund og proces for valg af it-leverandør

- Efter disse workshops blev der entret med ekspert IT-advokater med viden og erfaring i at forhandle sådanne kontrakter.
- IT-advokaterne havde, inden man påbegyndte forhandlingerne, fortrolige møder med alle stakeholdere, således at det blev helt klart for advokaterne, hvilke elementer, der var afgørende for den enkelte stakeholder. Der blev herefter nedsat en forhandlingsgruppe med deltagelse af de to IT-advokater og direktør i DLI MI Martin Jordt Andersen.
- Der blev herefter påbegyndt parallelle forhandlingsforløb med de to udbydere.
- Efter et langt forhandlingsforløb med de to udbydere, blev der i starten af november 2016 arrangeret en tur til begge udbyderes hovedkvarterer. Her havde alle danske stakeholdere mulighed for at møde de to udbyderes samarbejdspartneres medarbejdere, og få en bedre forståelse af de to udbyderes tilgang og processer.

# Bestyrelsesmøde den 24. januar 2017

- Gennemgang af det samlede forløb vedrørende valg af IT-udbyder. Fra man nedsatte en IT-arbejdsgruppe med deltagere fra alle stakeholdere, henover en proces med workshops for alle stakeholdere og IT-udbyderne, for til sidst at ende ud i et langt og grundigt forhandlingsforløb
- Enighed i bestyrelsen om, at arbejdet med valg af IT-udbyder havde været meget grundigt, og forløbet havde været godt i IT-gruppen, hvor der har været et godt samarbejde. Der var ligeledes enighed om, at begge IT-udbydere ville kunne løse opgaven tilfredsstillende.
- Der var et klart flertal hos stakeholdergruppens it-grupperepræsentanter for at vælge Solidsoft Reply som leverandør af den danske løsning. Efter en kort drøftelse var der tilslutning i hele bestyrelsen til indstillingen i dagsordenen om, at der indgås kontrakt med Solidsoft Reply.

## Criteria for assessing IT suppliers

1. General Business - legal, business capabilities, reputation, contractual risk
2. Business Model and Technology
3. Technical Capabilities - team, quality, response time, dataprotection fulfill directive, MVO, and Articles of the MVO
4. EMVO blueprint approach
5. Project Management - roles and responsibilities, Change request, end to end understanding
6. Functional Capabilities - documentations, other functional evaluation
7. Implementation propability
8. Support Business Processes of the MVO
9. Collaboration with IT supplier
10. Price

# Etablering af Dansk Medicin Verifikations System - DMVS

- DMVO's sekretariat er i tæt samarbejde med Solidsoft i fuld gang med arbejdet med at opbygge den danske database.
- Der er ansat en it-projektordinator i DMVO sekretariatet, der varetager (den daglige) dialog og samarbejde med Solidsoft og der holdes ugentlige skype-møder.
- Dette arbejde er primært af afgørende betydning for særligt grossister og (sygehus)apoteker.

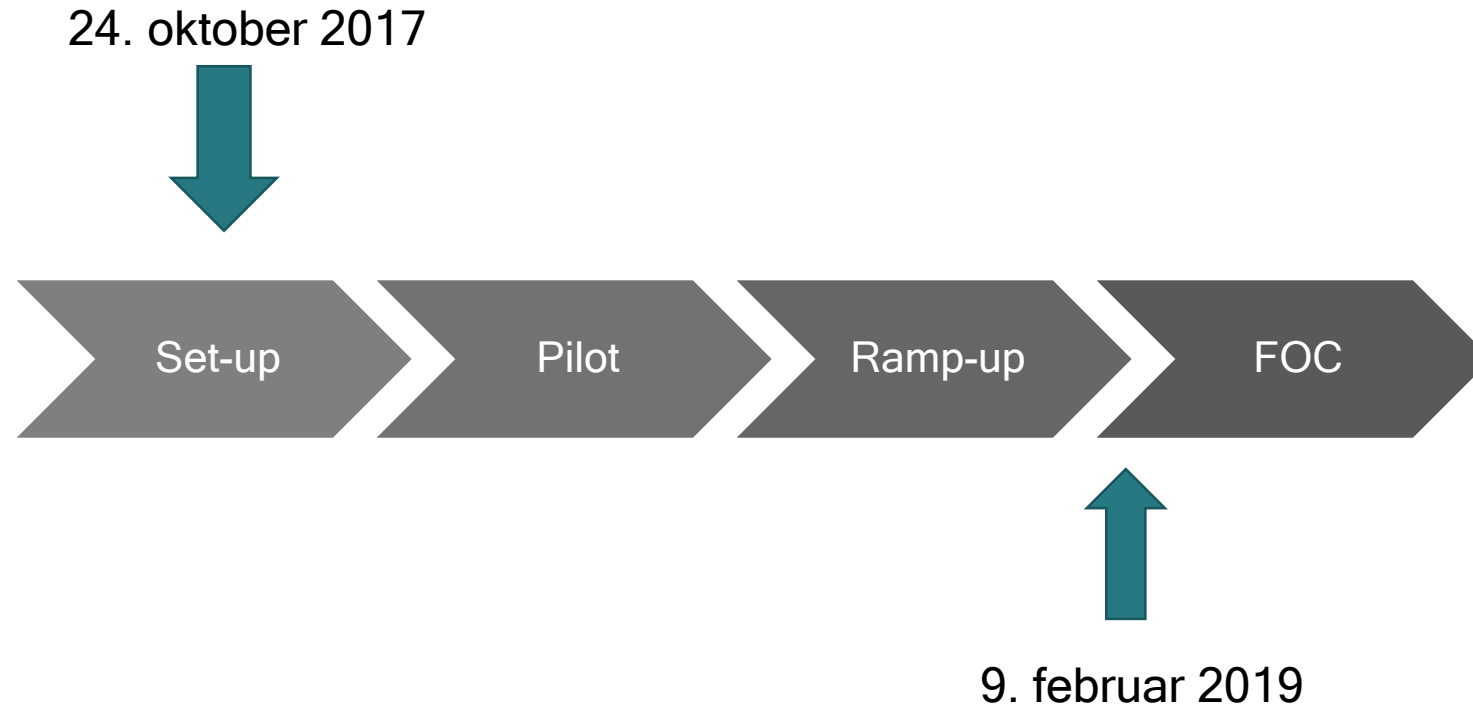

# Arbejdsgrupper i DMVO-regi - pt. fælles møder/workshops

- It-følgegruppe:
  - Den "gamle" it-stakeholdergruppe fortsætter i ny rolle og skal bl.a.
  - Drøfte problemstillinger og komme med input på et mere overordnet niveau i implementeringsfasen
  - Fungere som sparringspartner overordnet i forhold til det arbejde, som DMVO's sekretariat skal udføre sammen med Solidsoft Reply i opbygningen af den danske database
  - Afholdelse af workshops med Solidsoft Reply.
- "Ny" arbejdsgruppe:
  - Søge at få koordineret processerne i hele forsyningskæden i perioden *indtil* 9. februar 2019. Dette indebærer bl.a., at arbejdsgruppen skal
  - Sikre at der ikke opstår flaskehalse/forsyningsproblemer i overgangsperioden indtil 2019 på baggrund af det pågående implementeringsarbejde i forsyningskæden, herunder komme med forslag til evt. overgangsløsninger
  - Komme med evt. input til DMVO om kontakt til myndigheder om evt. konkrete problemstillinger

# Implementeringsplanen har fire faser

# Set-up fasen - Nu!

<b>Phase: System Set-up</b>	<b>Start: May 2017</b>	<b>End: No later than end February 2018</b>

# Formål med pilot:

---

- Gennem en kontrolleret proces, at implementere et begrænset antal repræsentativt brugerorganisationer for at sikre, at alt fungerer som designet og testet. Pilot inkluderer verificering af implementeringsprocessen for slutbrugerapplikationer, slutbrugers standard arbejdsprocedurer, supportkanaler mv.
- Pilotdeltagere agerer i produktion, som de første brugere.
- Der vil være et højt fokus på, at alle involverede parter griber ind overfor mulige udfordringer for at vurdere, planlægge samt foretage evt. nødvendige ændringer.
- Ved pilotfasens afslutning rapporterer alle involverede parter deres resultater, og ud fra opnåede erfaringer vurderes det, om noget skal ændres, forud for "Ramp Up" -fasen.
- Pilotdeltagere vil blive opdelt i mindre grupper bestående af 1 apotek, 1 grossist og 1 fremstiller.

# Formål med pilot - fortsat

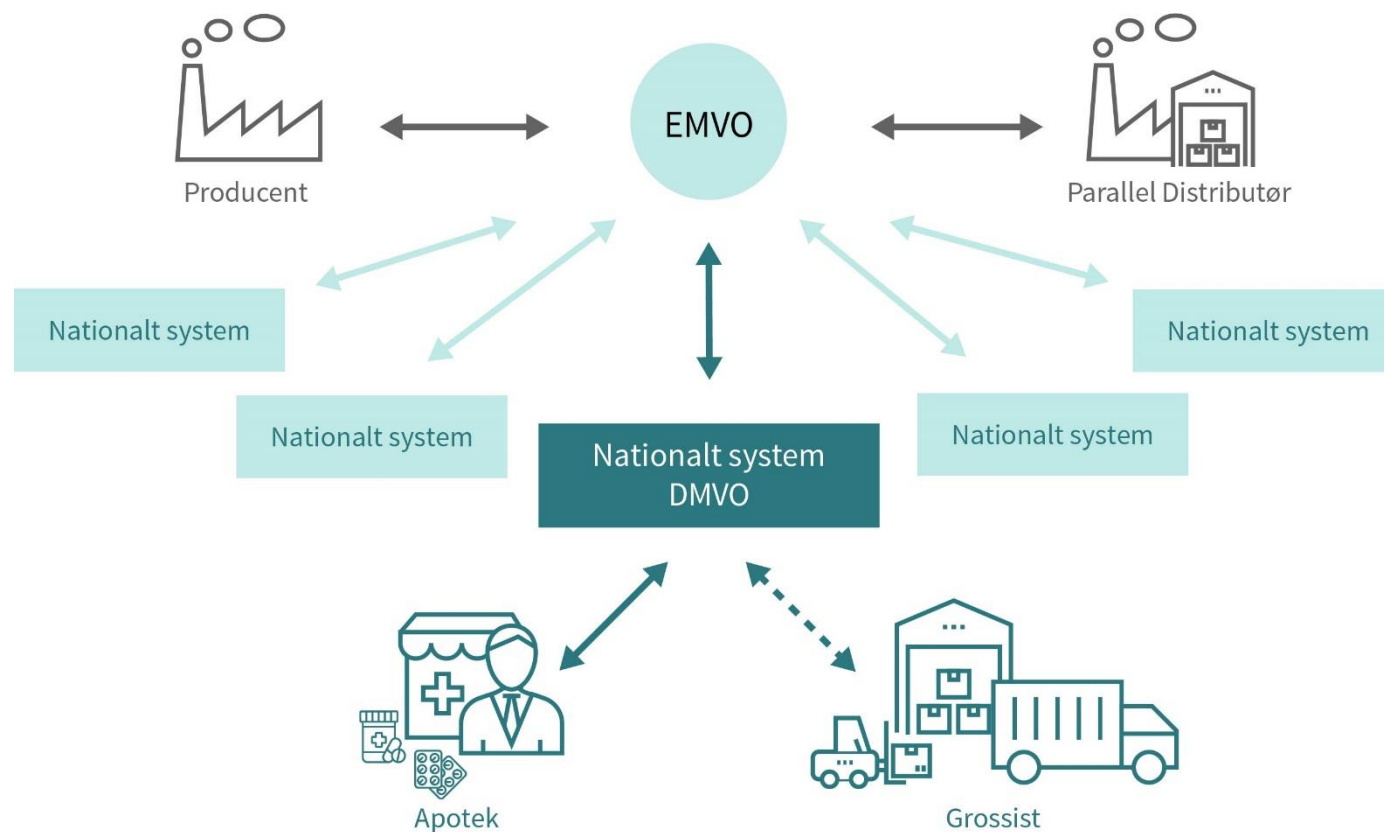

---

- Ny dato 1. marts 2018

## *Den danske kontrakt- og betalingsmodel*

# Finansieringsmodel Danmark

Der er rundt om i Europa valgt forskellige finansieringsmodeller.

Det er for nogle lande en udfordring at få finansieret Ramp Up fasen.

I Danmark er der valgt en model, hvor ingen firmaer skal betale før systemet er oppe at køre. Der er en långiver (DLI), der får sit lån tilbage ved direktivets ikrafttrædelse primo 2019.

# Hvem skal betale - hvad siger lovgivningen

## LM-loven:

§ 59 b. Fremstillere af lægemidler og indehavere af markedsføringstilladelser til lægemidler, der er forsynet med sikkerhedselementer, skal oprette, forvalte og tilgængeliggøre datalagre i et samlet datalagringsystem i overensstem-

FMD/DR: "Omkostningerne til datalagringsystemet afholdes af fremstillerne af lægemidler, der er forsynet med sikkerhedselementerne, jf. artikel 54a, stk. 2, litra e), i direktiv 2001/83/EF."

Man skal derfor, hvis man vil have sit produkt på det danske marked pr. 9. februar 2019, betale et årligt verifikationsgebyr gældende fra 2019 pr. MAH'er (indehaver af en eller flere markedsføringstilladelser).

# Hvem skal nu betale og hvor meget?

## Reglerne:

§ 59 b. Fremstillere af lægemidler og indehavere af markedsføringstilladelser til lægemidler, der er forsynet med sikkerhedselementer, skal oprette, forvalte og tilgængeliggøre datalagre i et samlet datalagringsystem i overensstem-

Bestyrelsen har på sit møde den 20. april 2017 besluttet, at startgebyret via en rabatordning gøres progressivt - jo tidligere indgåelse af kontrakt med DMVO des billigere

Bestyrelsen besluttede at det videre udredningsarbejde om antallet af MAH'er og fastsættelse af gebyrer, så vidt muligt skal ske i tæt dialog med Lægemiddelstyrelsen.

# Hvem skal nu betale og hvor meget?

## Reglerne:

§ 59 b. Fremstillere af lægemidler og indehavere af markedsføringstilladelser til lægemidler, der er forsynet med sikkerhedselementer, skal oprette, forvalte og tilgængeliggøre datalagre i et samlet datalagringsystem i overensstem-

Bestyrelsen har truffet beslutning om at der betales et one-off registration fee (startgebyr) og et annual fee (årligt gebyr), første gang i 2019.

Det er besluttet at one-off registration fee og annual fee for 2019 først skal forfalde til betaling i 2019, og at man i DK tager udgangspunkt i den model, som er valgt på europæisk plan, dvs. en flat fee struktur.

# Grundlag for prissætning af gebyrer

Lægemiddelstyrelsen og DMVO har i fællesskab i juni 2017 udsendt skrivelse til en konsolideret bruttoliste over mulige MAH'er.

Der er efterflg. i september 2017 udsendt en påmindelse til de MAH'er, vi ikke har modtaget svar fra.

230 MAH'er er for nuværende registreret med deres kontaktoplysninger og vil modtage kontrakten direkte.

# Kontraktens udformning

Ved kontraktens udformning har DMVO valgt at lade sig inspirere af den belgiske og finske MAH kontrakt.

En IT advokat har stået for selve udformningen samt det juridiske indhold.

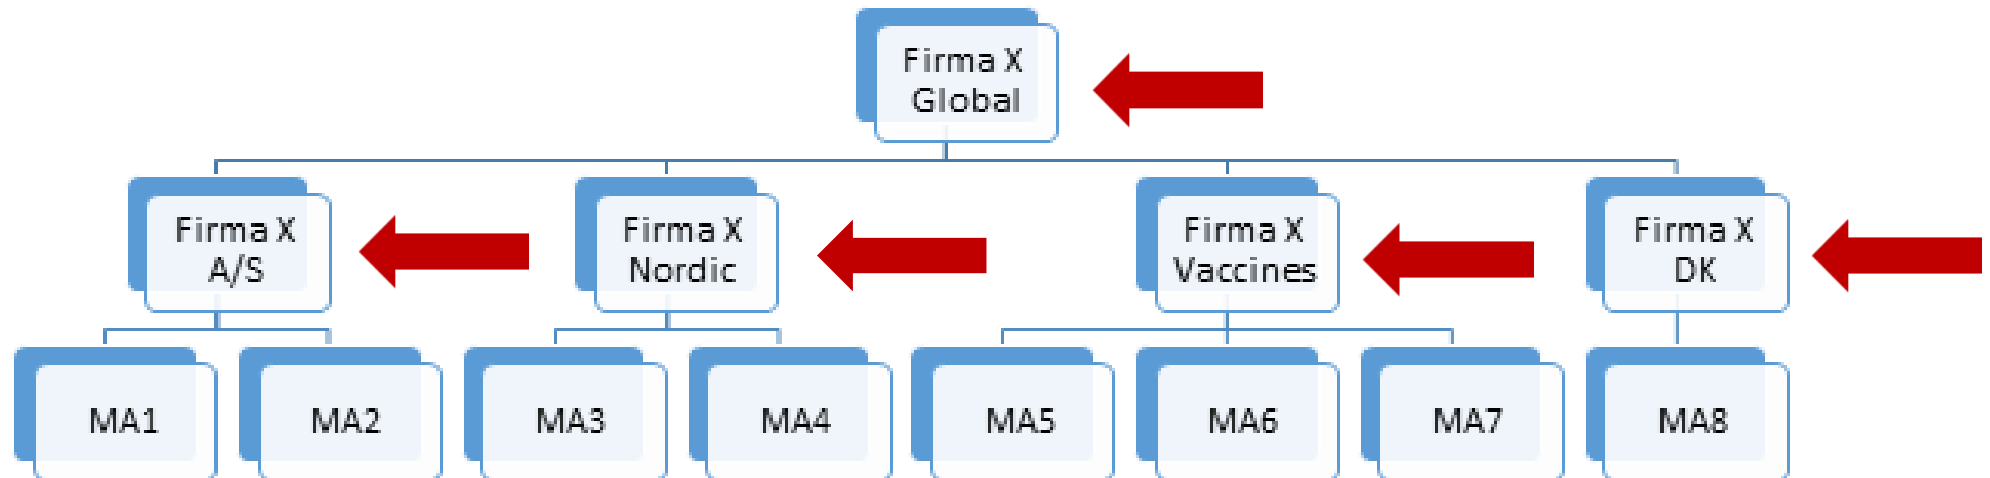

En mindre reviewgruppe har haft mulighed for at gennemse og kommentere på kontrakten, og indkomne kommentarer er indarbejdet.

Medlemmerne af DMVO bestyrelsen fra de betalende parter har godkendt hovedindhold og principper i den kontrakt- og betalingsmodel, som præsenteres i dag.

# Kontrakten - hvem indgås kontrakten med?

Kontraktens udformning muliggør, at et moderselskab (Company) kan indgå kontrakt på vegne af flere MAH'er samt en MAH'er kan indgå kontrakten direkte med DMVO. Betaling sker pr. MAH uanset om kontrakten omfatter en eller flere MAH'er.

# Progressivt one-off registration fee (startgebyr)

Der er truffet beslutning om et progressivt startgebyr med opbakning fra bestyrelsen.

Betaling af startgebyret betales senest 31. januar 2019.

Efter 9. februar 2019, vil nye MAH'er også skulle betale et one-off registration fee.

# Hvad med det årlige verifikationsgebyr?

Det årlige verifikationsgebyr vedtages af bestyrelsen november 2018 og tager højde for antallet af MAH'er.

Det årlige verifikationsgebyr afregnes pr. MAH og baserer sig på faktiske omkostninger ved at drive DMVO og det dertilhørende verifikationssystem samt udgør en flat fee (samme gebyr for alle), svarende til den europæiske model.

Det årlige verifikationsgebyr vil første gang skulle betales senest 1. marts 2019. Efterfølgende hver den 15. januar 20XX.

# MAH'ere i Danmark

- Lægemiddelstyrelsen skønner
    - 750 MAH i systemet - skønsmæssigt 8% dubletter skal sorteres fra
    - 420 er aktive - skønsmæssigt 8% dubletter skal sorteres fra
  - DMVO har sammenholdt med lægemiddelstatistikken
    - 35 MAH er ikke registreret af lægemiddelstyrelsen, men har alligevel salg i dk
    - 2500 Drugids mangler(PI, Sygehusegenproduktion, SSI, etc.)
    - 751 MAH har Rx drug-id der opfylder betingelserne om verifikation
    - 288 MAH har haft Rx salg i 2015-2017
    - I praksis forventes et lidt lavere antal MAH'ere i 2019
- Ca. 230 repræsentanter med en omsætning i DK
  - Tilsammen har repræsentanterne pt ca. 288 aktive MAH
  - Alle MAH'ere skal on boarde før 9 februar 2019 for at kunne sælge receptpligtige lægemidler fremover
  - Der er bygget en lille incitament ind i modellen, så jo før jo billigere

# Eksempel på årligt fee ved 230 MAH

Udgangspunktet 230 MAH, DKK ca. 41.000 i årligt fee per MAH

- Stor Generika - 9 MAH, 9,5 mio pakninger, 325 brands, 670 mio i omsætning
  - pris per år DKK ca. 369.000
- Stor original, 5 MAH, 5,5 mio pakninger, 98 brands, 340 mio
  - pris per år DKK ca. 205.000
- Lille original, 1 MAH, 2200 pakninger, 5 brands, 1,2 mio i omsætning
  - pris per år DKK ca. 41.000

- Hvis dette setup giver et over/underskud opkræves/returneres dette via af det årlige fee. fremover
- Der er intet incitament til at vente til efter 2019 - man kommer til at betale on-boarding plus index regulering for alle nye MAH

# Processen herfra

Kontrakten vil blive udsendt direkte til alle MAH'er, som senest har ladet sig registrere hos DMVO 31. oktober 2017 i løbet af november 2017.

I forbindelse med kontrakten, vil det blive præciseret på hvilken måde kontrakten skal underskrives og returneres.

DMVO er for nuværende ved at undersøge muligheder for elektronisk underskrift og returnering af kontrakt. Oplysninger herom følger med kontrakten, ved dennes fremsendelse.

Spørgsmål kan endvidere rettes direkte til DMVO.

# Hvad er definitionen på en MAH'er

---

MAH (indehaver af markedsføringstilladelsen) er den virksomhed som er indehaver af den udstedte markedsføringstilladelse for et lægemiddel.

Det vil oftest være den virksomhed, der har ansøgt om og fået godkendt en markedsføringstilladelse, men markedsføringstilladelsen kan godt overdrages til en anden virksomhed efter godkendelsen er udstedt.

Indehaveren af markedsføringstilladelsen er ansvarlig for markedsføringen af lægemidlet.

Udpegningen af en repræsentant fritager ikke indehaveren af markedsføringstilladelsen for dennes retlige ansvar.
